

UNIVERSITY PATHWAY IN VALENCIA

COURSE 2026-2027

From application to admission to Spanish higher education

UNIVERSITY PATHWAY

Vive Spanish School supports international students throughout the entire process of accessing higher education in Spain, through a comprehensive university advising service. Our University Pathway offers personalised guidance on the different university and vocational training options, tailored to each student's academic profile and goals.

Each student receives an individual guidance plan based on their academic record, admission route and the cut-off scores of the degrees they are interested in: choosing a course of study, admissions strategy, managing the application, recognition of prior studies, certified translations and apostilles, and enrolment at their chosen institution.

We are a family-run school in the heart of Benimaclet, Valencia's university district, a stone's throw from the Universitat de València and the UPV. Accredited by the Instituto Cervantes, members of FEDELE and with a collaboration agreement with the Catholic University of Valencia (UCV).

HOW IT WORKS

1

IMPROVE YOUR SPANISH

Before starting university preparation, students need a B2 level of Spanish: the minimum recommended to follow university classes and understand academic content.

This is achieved through our intensive Spanish courses (20 classes per week), which build all language skills and help students settle into daily life in Spain.

2

PREPARE FOR THE ADMISSION EXAM

Some students gain direct admission once their high school diploma is officially recognised. Otherwise, they prepare the PCE (UNED) or the PAU / Selectividad, choosing 2 to 6 subjects (4 recommended).

Fully personalised: initial assessment, study plan with a personal tutor and ongoing follow-up. PCE preparation runs from January to May, with the exam at the end of May and a grade-improvement sitting in September.

3

GET YOUR SCORE AND CHOOSE YOUR UNIVERSITY

The final admission score combines 60% of upper secondary grades and 40% of the entrance exam. The maximum is 14 points; 5 is a pass.

Each degree has its own cut-off score, which changes every year with demand. With their final score, students can apply to several universities.

4

WELCOME TO SPANISH UNIVERSITY LIFE

Admission results are published in summer. Once accepted, students secure their place and begin their university studies in Spain.

"I thoroughly appreciated my experience at this school. The educators are exceptionally welcoming and consistently eager to assist."
